---

**All:**

**We need screening numbers for the TICs for the air. I know they are in PPBV. See attachment. Also, did we update the other screening number for the other media.**

**Subject:** Revised Soil Screening Summary Data Table

Gary,

Attached is the revised summary screening value tables. We have updated the soil sample table to include the additional screening values that we discussed earlier today. We are still missing the herbicide data for the soil samples. We anticipate having these results sometime on Monday. Once we receive that data we will re-run the tables again for your review. We are also working on tracking down some the other screening parameters that TCEQ suggested using for the Air Samples and the Surface Water Sample. Please let me know if you have any questions. Thanks and have a good weekend.
